

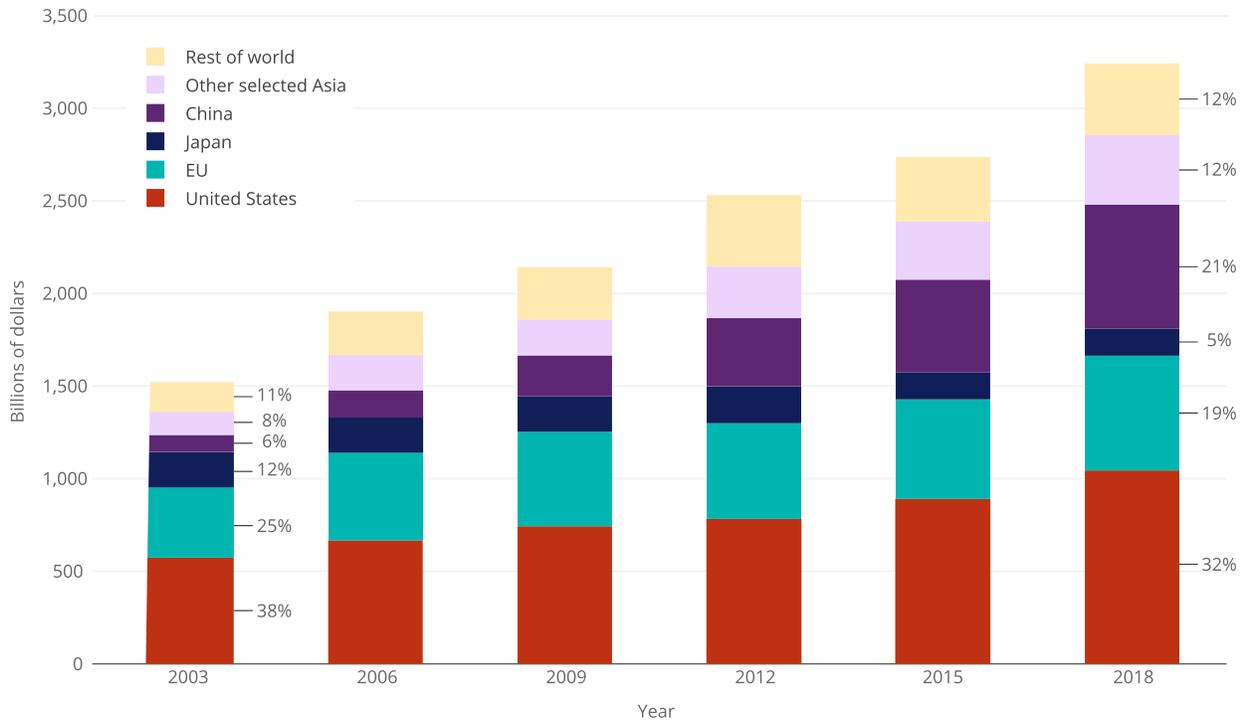

FIGURE 24

Value-added output of high R&D intensive industries by selected region, country, or economy: Selected years, 2003–18

EU = European Union.

Note(s)

Other selected Asia includes India, Indonesia, Malaysia, Philippines, Singapore, South Korea, Taiwan, Thailand, and Vietnam. Percentages shown represent share of global value-added output of high R&D intensive industries. Value added is the amount contributed by a country, firm, or other entity to the value of a good or service and excludes purchases of materials and inputs. For more information on the Comparative Industry Service Forecast database available at IHS Markit, see <https://ihsmarkit.com/>.
