n = number of survey responses.**Note(s):**Table displays data for years when the question was proffered. Responses are to the following: *Science makes our way of life change too fast. Do you strongly agree, agree, disagree, or strongly disagree?***Source(s):**

Data are sourced from multiple surveys that used either identical or similar survey items. National Center for Science and Engineering Statistics, Survey of Public Attitudes Toward and Understanding of Science and Technology (1979–2001); University of Michigan, Survey of Consumer Attitudes (2004); NORC at the University of Chicago, General Social Survey (2006–18).
