

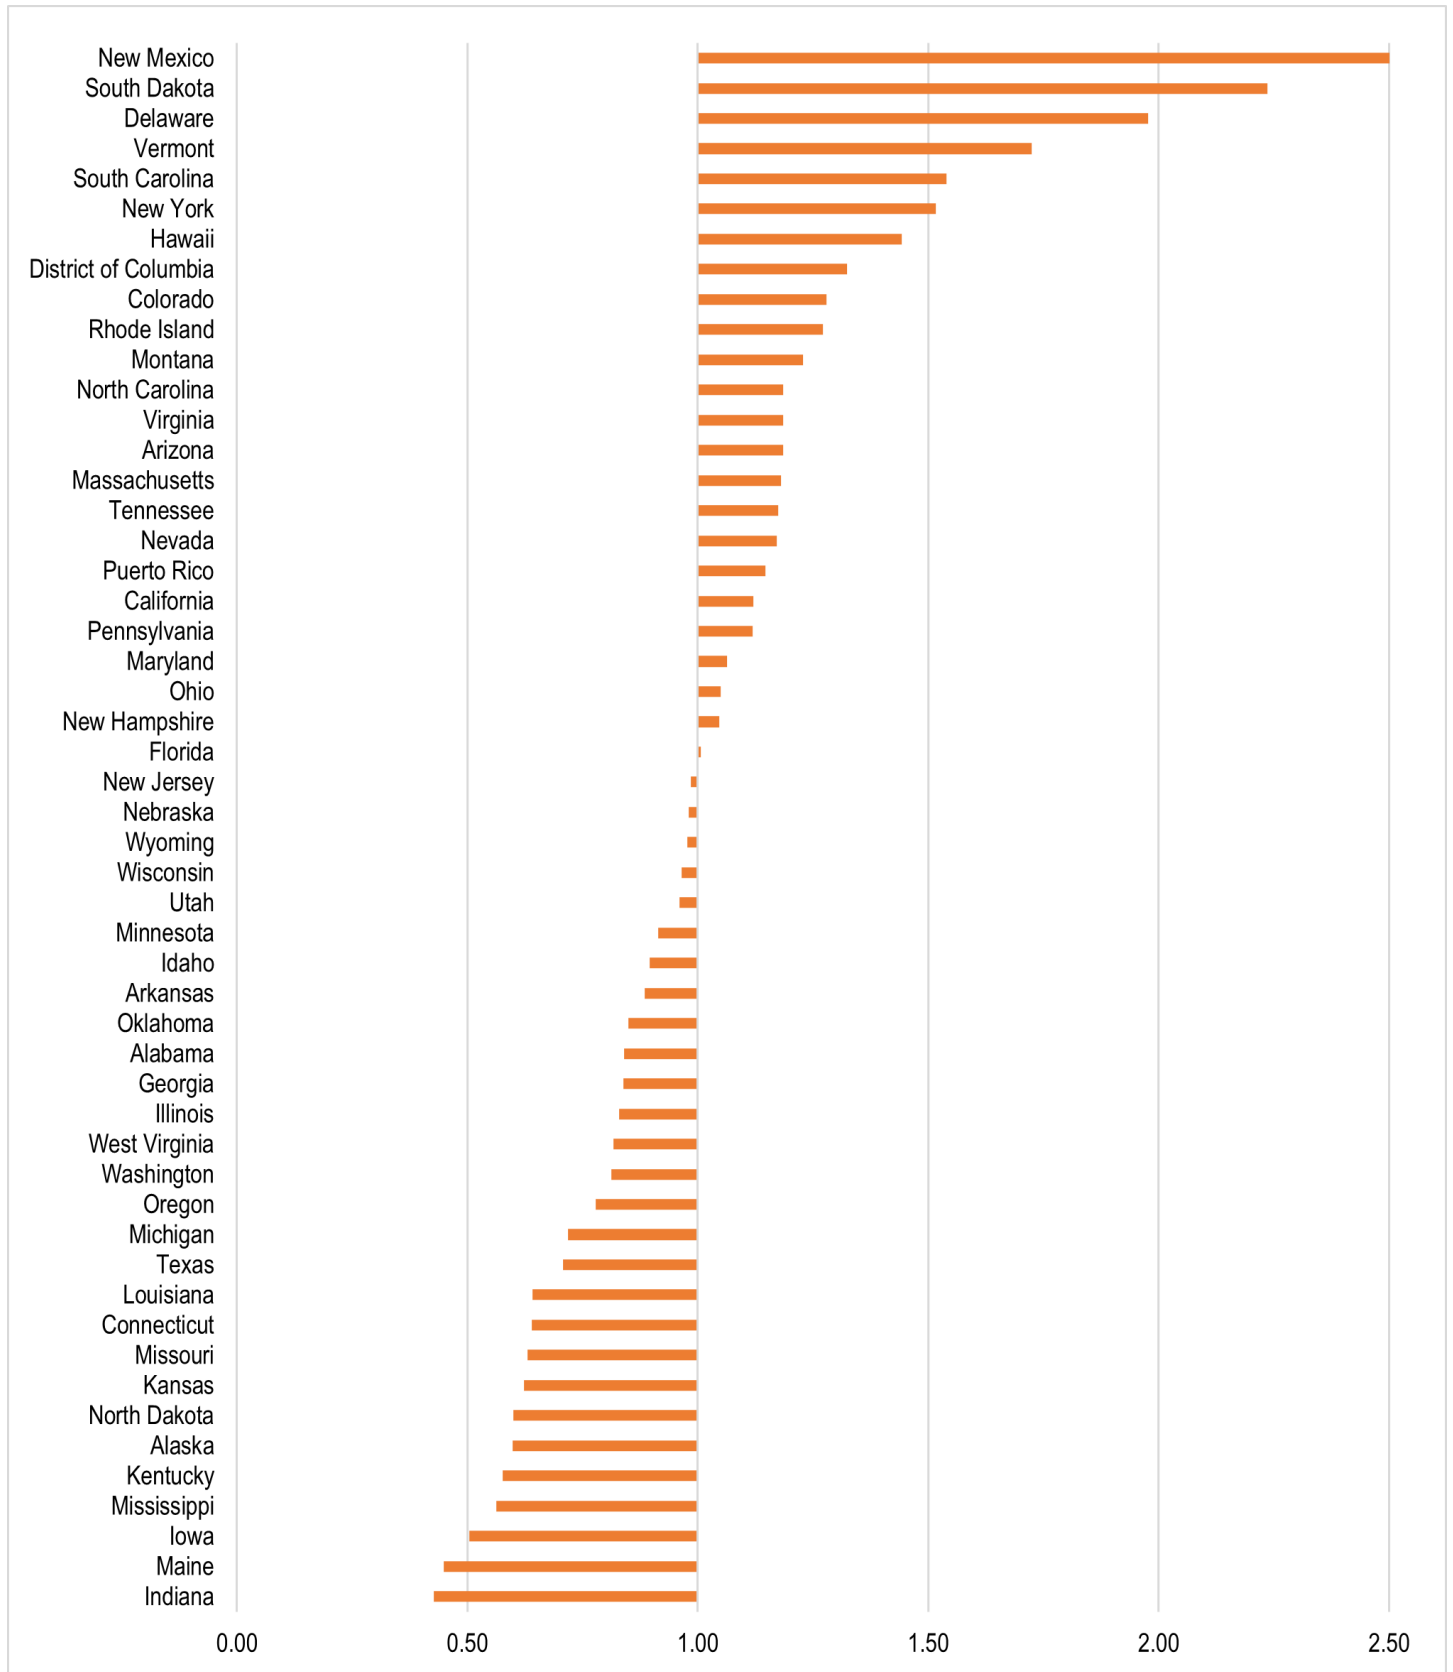

Figure INV-C

Location quotients of U.S. states for patents in climate change mitigation technologies in energy generation, transmission, or distribution: 2011–22

CCMT = climate change mitigation technology.

**Note(s):**

Patents are attributed to states using a fractional count based on the states listed as the residences of inventors. Location quotient measures each state's concentration of patenting in a technology area among sustainable technologies relative to the U.S. concentration of patenting in that area.
