## Labor Force

# The STEM Labor Force: Scientists, Engineers, and Skilled Technical Workers

## Supplemental Tables

NSB-2024-5

May 30, 2024

This publication is part of the 2024 edition of the *Science and Engineering Indicators (Indicators)* suite of reports. *Indicators* is prepared under the guidance of the National Science Board by the National Science Foundation's National Center for Science and Engineering Statistics. The *Indicators* suite consists of a summary report called *The State of U.S. Science and Engineering*, more-detailed thematic reports with supporting data, and a data tool that provides state-level indicators.

## Supplemental Tables

Table	Title
SLBR-1	Employed adults, by broad and detailed occupation and educational attainment: 2021
SLBR-2	Workers in STEM occupations, by educational attainment: 2011 and 2021
SLBR-3	March unemployment rate of workers, by occupation group and educational attainment: 2011–21
SLBR-4	Monthly unemployment of workers, by occupation group and educational attainment: 2021
SLBR-5	Labor force characteristics, by occupation group: 2016–19, 2021
SLBR-6	Labor force characteristics, by detailed occupation group: 2016–19, 2021
SLBR-7	Educational attainment of workers in STEM, by sex: 2021
SLBR-8	Share of workers in STEM occupations, by sex: 2011, 2016, 2021
SLBR-9	Share of women with a bachelor's degree or higher in S&E and S&E-related occupations: Selected years, 2010–21
SLBR-10	Distribution of race and ethnicity among STEM workers, by educational attainment: 2021
SLBR-11	Median personal earnings for full-time, year-round workers, by STEM group and educational attainment: 2021
SLBR-12	Select occupations with the highest median earnings for all full-time, year-round workers, by STEM occupation group and sex: 2021
SLBR-13	Select occupations with the lowest median earnings for all full-time, year-round workers, by STEM occupation group and sex: 2021
SLBR-14	Median earnings for full-time, year-round workers in select STEM occupations, by sex: 2021
SLBR-15	Median personal earnings of full-time, year-round workers in STEM groups, by race and ethnicity: 2021
SLBR-16	Median earnings of select STEM occupations, by race and ethnicity: 2021
SLBR-17	Distribution of workers in STEM occupations, by occupation group and educational attainment: 2021
SLBR-18	Occupation prevalence of the skilled technical workforce, by STEM group and select occupations: 2021
SLBR-19	Median earnings and prevalence of the skilled technical workforce in select occupations, by STEM group and educational attainment: 2021
SLBR-20	Prevalence of STEM workers in select industries, by occupation group: 2021
SLBR-21	Distribution of STEM workers among all state workers, by occupation group and educational attainment: 2021
SLBR-22	STEM workers, by occupation group and Public Use Microdata Area: 2021
SLBR-23	Distribution of STEM workers, by educational attainment and STEM group: 2021
SLBR-24	STEM workers with credentials, by educational attainment: 2020

Table	Title
SLBR-25	Employed workers in STEM occupations, by foreign-born and citizenship status: 2021
SLBR-26	Top country or economy of birth for foreign-born STEM workers, by occupation group: 2021
SLBR-27	Citizenship and foreign-born status of workers with bachelor's degrees or higher, by STEM occupation category: 2021
SLBR-28	Postgraduation plans of U.S. SEH doctorates on temporary resident visas to stay in the United States, by broad field of doctorate and country or economy of origin: 2010–21
SLBR-A	Bureau of Labor Statistics projections of employment and job openings in S&E and other selected occupations: 2022–32
SLBR-B	Employment sector of STEM workers, by veteran status and STEM group: 2021
SLBR-C	Share of veterans and nonveterans in STEM, by employer type and STEM occupation: 2021
SLBR-D	Occupation and sector of employed science, engineering, and health research doctorate recipients living in the United States: 2021

Data include the employed, civilian, non-institutionalized population ages 16–75 and exclude those currently enrolled in primary or secondary school. Details may not sum to totals due to rounding. Coding of occupations into STEM categories reflects changes to American Community Survey (ACS) occupation codes following the 2018 update to the Standard Occupational Classification (SOC) implemented by the Bureau of Labor Statistics. Data from 2011 through 2017 use occupations from the 2010 occupation list, while data from 2018 through 2021 use occupations from the 2018 occupation list.

s = suppressed for reliability; coefficient of variation exceeds publication standards.

S&E = science and engineering; STEM = science, technology, engineering, and mathematics; STW = skilled technical workforce.

**Note(s):**

Data include the civilian, non-institutionalized labor force ages 16–75 and exclude those in military occupations, those missing occupation data or who have not worked in the last 5 years, and those currently enrolled in primary or secondary school. Unemployment rates represent unemployment in March of the indicated year. Coding of occupations into STEM categories utilizes the OCC2010 variable from the IPUMS data set that provides uniform occupation codes based on the 2010 Standard Occupational Classification (SOC) values for all years present in this table. The STEM coding used for the Current Population Survey (CPS) occupations differs slightly from the occupations listed in [Table SLBR-1](#) due to additional granularity of occupations available in the CPS data. Details will be provided upon request.

**Note(s):**

Data include the civilian, non-institutionalized population ages 16–75 and exclude those in military occupations, those missing occupation data or who have not worked in the last 5 years, and those currently enrolled in primary or secondary school. Coding of occupations into STEM categories reflects changes to American Community Survey (ACS) occupation codes following the 2018 update to the Standard Occupational Classification (SOC) implemented by the Bureau of Labor Statistics. Data from 2016 through 2017 use occupations from the 2010 occupation list, while data from 2018 through 2021 use occupations from the 2018 occupation list. Data for 2020 are not available due to the impact of the COVID-19 pandemic on ACS data collection for the survey year. Additional information is available at <https://www.census.gov/programs-surveys/acs/data/experimental-data/2020-1-year-pums.html>.

**Note(s):**

Data include the employed, civilian, non-institutionalized population ages 16–75 and exclude those currently enrolled in primary or secondary school. Occupations were selected based on the percentage of S&E, S&E-related, or STEM middle-skill workers that belong to the STW. Non-STEM occupations are not shown.

NAICS = North American Industry Classification System; n.e.c. = not elsewhere classified; S&amp;E = science and engineering; STEM = science, technology, engineering, and mathematics.

**Note(s):**

Data include the employed, civilian, non-institutionalized population ages 16–75 and exclude those currently enrolled in primary or secondary school. Industries were selected if the percentage of S&E, S&E-related, or STEM-middle skill workers in that industry was at least 2.5 times the percentage of all U.S. workers in the indicated STEM group. In 2021, 24.2% of workers were in STEM occupations, 6.2% were in S&E occupations, 8.9% were in S&E-related occupations, and 9.1% were in STEM middle-skill occupations.

<sup>a</sup> Includes Hong Kong.

SEH = science, engineering, and health.

**Note(s):**

Data include doctorate recipients who are on temporary resident visas. Percentages are based on the total number of SEH doctorate recipients on temporary resident visas, including those who did not report their postgraduate location plans or employment plans. Recipients who plan to stay report intending to locate in the United States; definite commitments include doctorate recipients reporting having a definite commitment for a postdoctoral appointment or employment in the United States. The percentage of those who did not report either postgraduate location plans or employment plans ranged from 3.1% to 6.5% over the 2010–21 period. The survey field of study collection changed in 2021, which may affect the data comparability for field of doctorate across years. For more information, see the Survey of Earned Doctorates Field of Study Taxonomy Changes Working Paper (<https://nces.nsf.gov/pubs/nces23200>); see also <https://nces.nsf.gov/pubs/nsf24300/table/3-4>.

**Bureau of Labor Statistics projections of employment and job openings in S&E and other selected occupations: 2022–32**

(Number in thousands and percent)

STEM group	Employment, 2022	Employment, 2032	Projected change	Projected change (%)
Total	164,483	169,147	4,664	2.8
Non-STEM occupations	128,923	131,139	2,216	1.7
STEM occupations	35,560	38,008	2,448	6.9
S&E occupations	8,394	9,442	1,049	12.5
S&E-related occupations	12,781	13,893	1,112	8.7
STEM middle-skill occupations	14,386	14,674	288	2.0

S&amp;E = science and engineering; STEM = science, technology, engineering, and mathematics.

**Note(s):**

Estimates of current and projected employment for 2022–32 are from the Bureau of Labor Statistics (BLS) National Employment Matrix; estimates in the matrix are developed by the Division of Employment Projections (DEP) using data from the Occupational Employment and Wage Statistics (OEWS) program and the Current Population Survey (CPS). Together, these sources cover paid workers and self-employed workers in all industries, agriculture, and private households. Because data are derived from multiple sources, they can often differ from employment data provided by OEWS, CPS, or other employment surveys alone. BLS does not make projections for S&E occupations as a group, nor does it do so for some of the S&E and S&E-related occupational categories as defined by the National Center for Science and Engineering Statistics (NCSES); numbers in the figure are based on the sum of BLS projections for occupations that NCSES includes in the respective categories. The STEM classifications used here differ slightly from those used in the American Community Survey (ACS) due to additional occupation detail in the projections tabulations. A crosswalk will be provided upon request.

	Nonveterans	3.0	4.9	6.1
Self-employed	Veterans	3.2	5.8	16.2
	Nonveterans	2.7	5.5	12.7

S&E = science and engineering; STEM = science, technology, engineering, and mathematics.

**Note(s):**

Data include the employed, civilian, non-institutionalized population ages 16–75 and exclude those currently enrolled in primary or secondary school. Non-STEM occupations are not shown. The totals of each row sum to the percentage of workers in STEM for the subgroup.

Non-S&E occupations	146,600	30.9	7.1	62.1	45.5	8.1	8.5

S&E = science and engineering; STEM = science, technology, engineering, and mathematics.

<sup>a</sup> Includes 4-year colleges or universities, medical schools (including university-affiliated hospitals or medical centers), and university-affiliated research institutes; 2-year colleges, community colleges or technical institutes, and other precollege institutions.

**Note(s):**

Non-S&E occupations includes doctorate holders working in both non-STEM and STEM middle-skill occupations because the Survey of Doctorate Recipients (SDR) does not produce data on STEM middle-skill occupations. Percentages may not sum to 100% because of rounding. Numbers are rounded to the nearest 100; thus, numbers may not sum due to rounding.
