

Figure RD-12

## Industry share of U.S. business R&amp;D, by top R&amp;D-performing industries: 2010–21

NAICS = 2017 North American Industry Classification System.

**Note(s):**

Industry classification is based on the dominant business code for domestic R&D performance, when available. For companies that did not report business codes, the classification used for sampling was assigned. Beginning in survey year 2018, statistics are representative of companies located in the United States that performed or funded \$50,000 or more of R&D. The 2010–16 data come from the Business R&D and Innovation Survey and do not include companies with fewer than five domestic employees. Data for 2017–18 come from the Business Research and Development Survey, whereas data for 2019–21 come from the Business Enterprise Research and Development Survey; both surveys do not include companies with fewer than 10 domestic employees.
