

Figure KTI-1

Industry share of U.S. total KTI value added, by selected industries: 2002–22

IT = information technology; KTI = knowledge and technology intensive; nec = not elsewhere classified.

**Note(s):**

Value added is the value of goods and services (gross output) minus the cost of intermediate inputs (energy, materials, and purchased services). Industry value added is a measure of an industry's contribution to overall gross domestic product. KTI industries include high R&D intensive and medium-high R&D intensive industries based on a classification by the Organisation for Economic Co-operation and Development. The data have been crosswalked to the International Standard Industrial Classification, Revision 4. See Table SAKTI-2.
