

Figure TRN-24. Share of U.S. companies reporting product or business process innovation, by selected industry: 2020–22

Note(s):

Industry classification is based on dominant establishment payroll. Statistics are representative of companies located in the United States. Product-innovating companies are self-reporting, based on having introduced a new or improved product that differs significantly from the firm's previous products and that has also been introduced on the market or brought into use by the firm. These products may be goods or services.
