

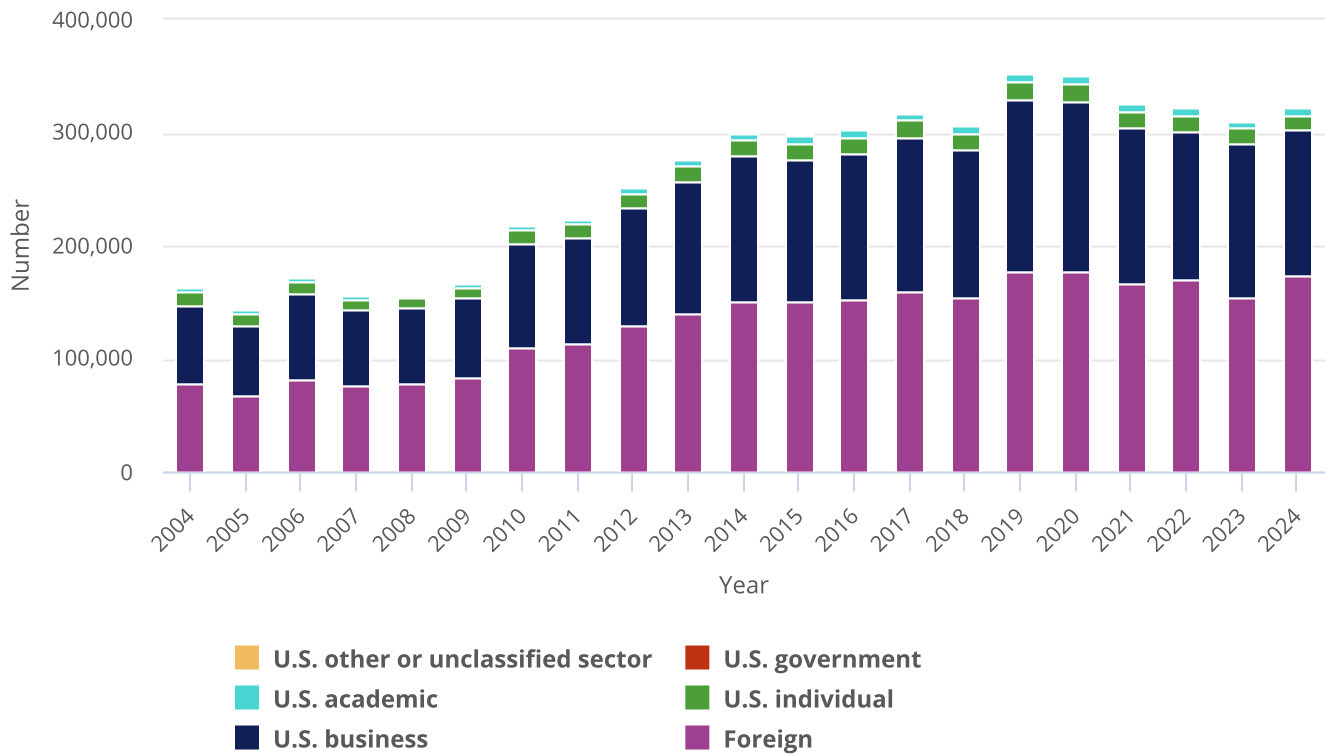

Figure 34. USPTO utility patents granted to owners, by nationality and U.S. sector: 2004–24

Note(s):

USPTO is Patent and Trademark Office. Patents are allocated by patent ownership information and are credited on a fractional-count basis according to the proportion of inventors from participating institutions. U.S. other includes private nonprofits, such as foundations, associations, nonacademic hospitals, and research-performing institutions. Patents with unknown owner location are not shown.
