

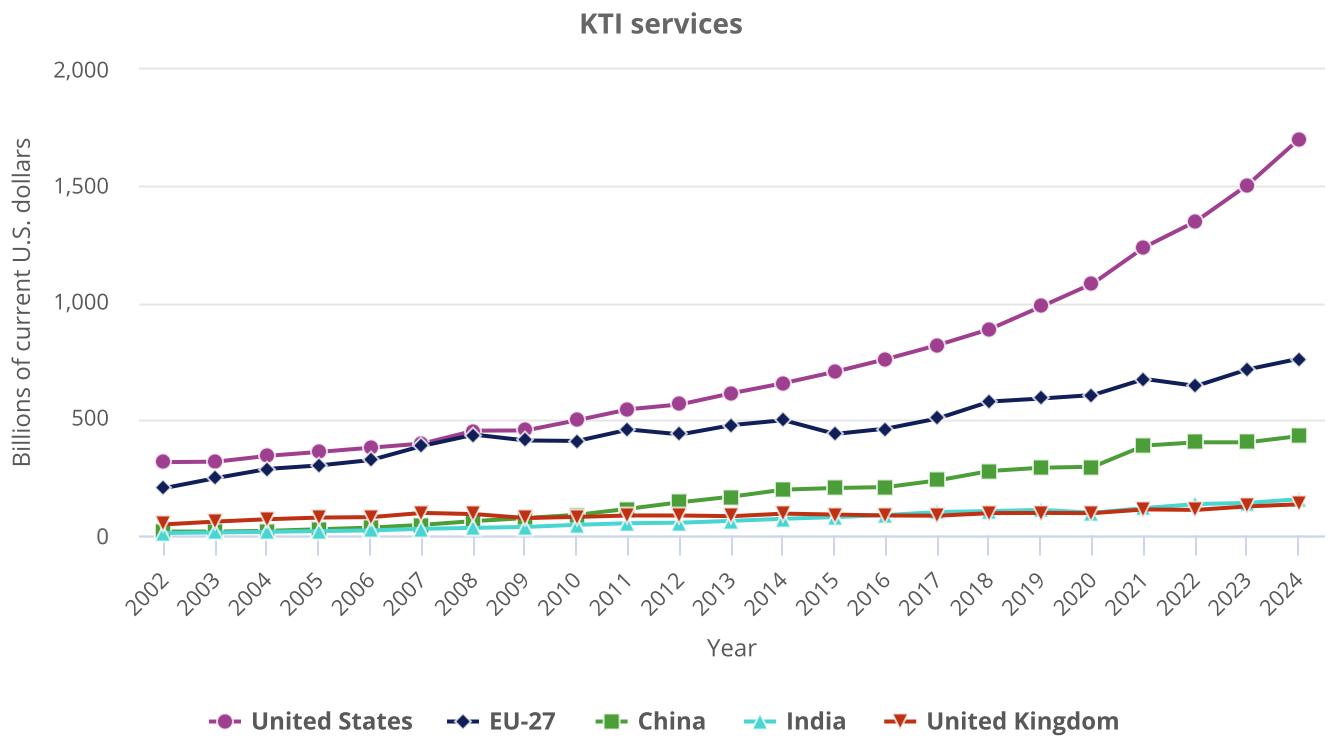

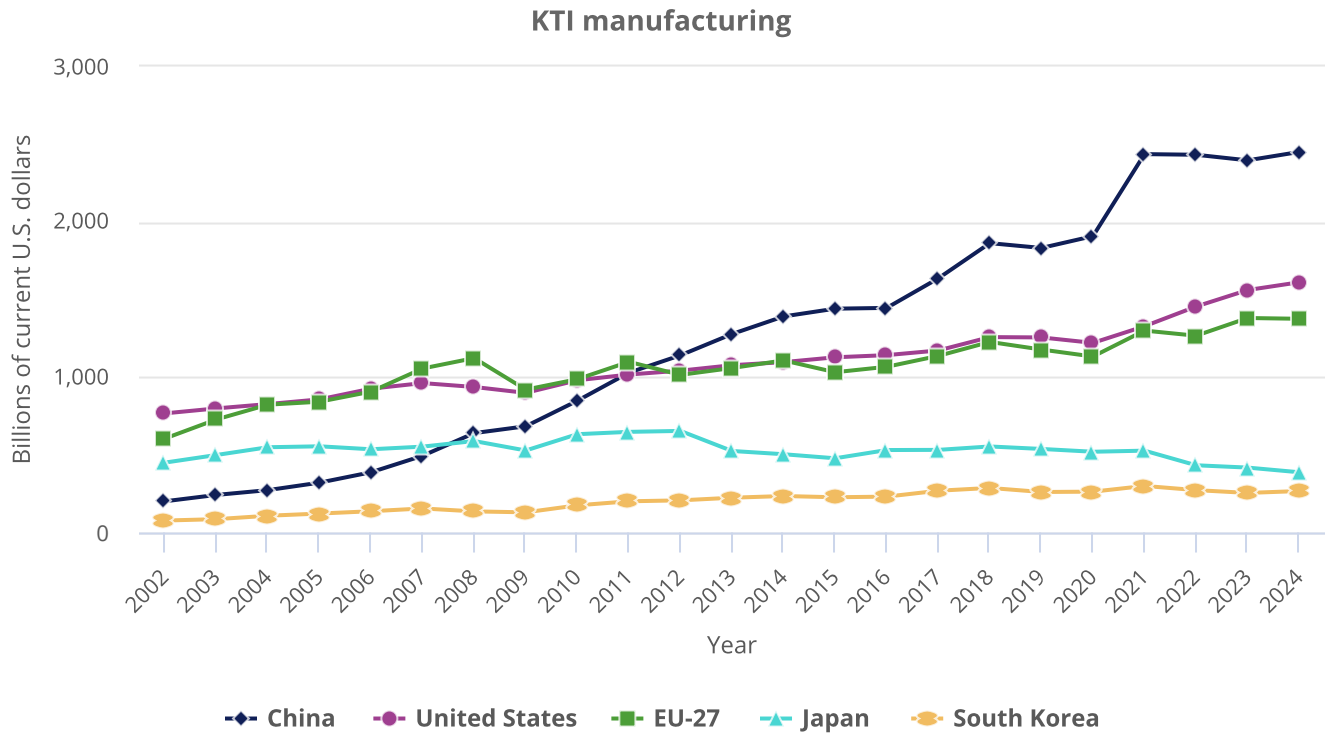

Figure 40. KTI industry value added for selected countries or economies: 2002–24

**Note(s):**

EU-27 is European Union. KTI is knowledge and technology intensive. *Value added* is the value of goods and services (gross output) minus the cost of intermediate inputs (energy, materials, and purchased services). KTI industries include high R&D-intensive and medium-high R&D-intensive industries based on a classification by the Organisation for Economic Co-operation and Development. KTI manufacturing industries include chemicals and chemical products; pharmaceuticals; weapons and ammunition; computer, electronic, and optical products; electrical equipment; machinery and equipment not elsewhere classified (nec); motor vehicles, trailers, and semi-trailers; air and spacecraft and related machinery; railroad, military vehicles, and transport nec; and medical and dental instruments. KTI services industries include information technology and other information services, software publishing, and scientific R&D.
