Note(s):

Race and ethnicity breakouts are for U.S. citizens and permanent residents only. S&E technologies includes science, engineering, health, and other S&E technologies. Institutions awarding the same number of degrees are listed alphabetically. Data are based on degree-granting institutions eligible to participate in Title IV federal financial aid programs. High-Hispanic-enrollment institutions are defined by the Department of Education as nonprofit public and private institutions of higher education whose full-time equivalent enrollment of undergraduate students is at least 25% Hispanic, according to data that institutions reported in the Integrated Postsecondary Education Data System Fall 2018 Enrollment Survey, conducted by the National Center for Education Statistics. None of the named institutions is a historically Black college or university.
