</table>

<sup>a</sup> = estimate < 500. D = suppressed for data confidentiality reasons. S = suppressed for reliability; coefficient of variation exceeds publication standards.  
S&E = science and engineering.  
<sup>b</sup> Hispanic or Latino may be any race; race categories exclude Hispanic origin.  
<sup>c</sup> S&E-related occupations include health-related occupations (e.g., diagnosing practitioners, registered nurses, and postsecondary teachers in health and related sciences), S&E managers, S&E precollege teachers, S&E technicians and technologists, and other S&E-related occupations.  
<sup>d</sup> Non-S&E occupations do not include S&E-related occupations.  
<sup>e</sup> Includes medical schools and university-affiliated research institutes.  

**Note(s):**  
Numbers are rounded to nearest 1,000. Detail may not add to total because of rounding and suppression. The National Survey of College Graduates asks the degree of difficulty—none, slight, moderate, severe, or unable to do—an individual has in seeing (with glasses), hearing (with hearing aid), walking without assistance, lifting 10 pounds, or concentrating, remembering, or making decisions. Respondents who answered “moderate,” “severe,” or “unable to do” for any activity were classified as having a disability. Scientists and engineers are individuals under the age of 76 who have a bachelor’s or higher degree, are living in the United States, and have an S&E or S&E-related degree or occupation.
