

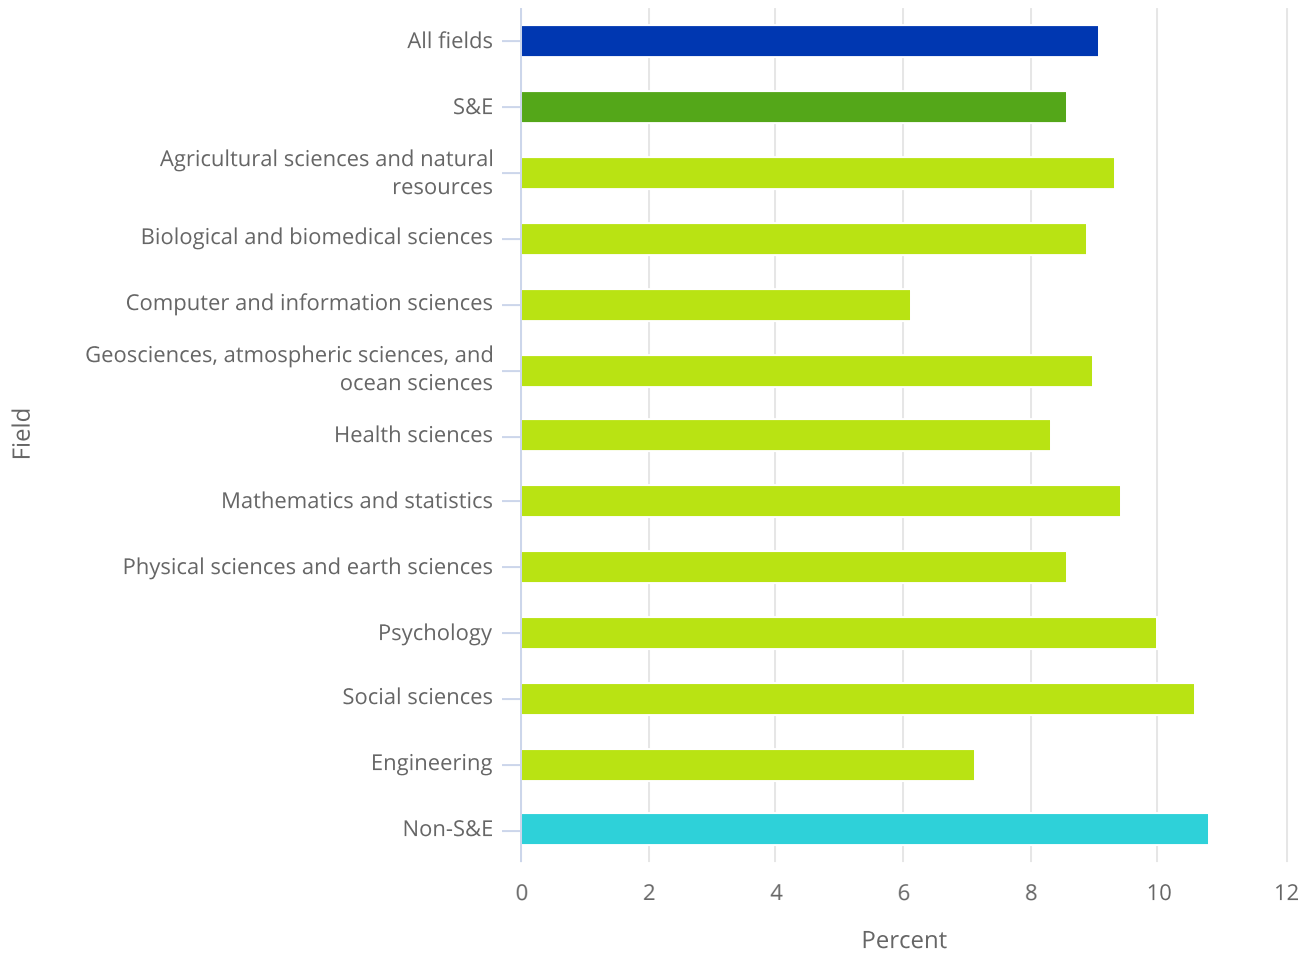

**Figure 21**

**Doctorate recipients with disability, by selected field: 2019**

S&E = science and engineering.

**Note(s):**

In previous years, health sciences was classified as non-S&E. Doctorate recipients could report more than one disability. Survey asks degree of difficulty—none, slight, moderate, severe, or unable to do—an individual has in seeing (with glasses), hearing (with hearing aid), walking without assistance, lifting 10 pounds, or concentrating, remembering, or making decisions. Those respondents who answered "moderate," "severe," or "unable to do" for any activity were classified as having a disability. Data in this table are based on research doctorates only.
