

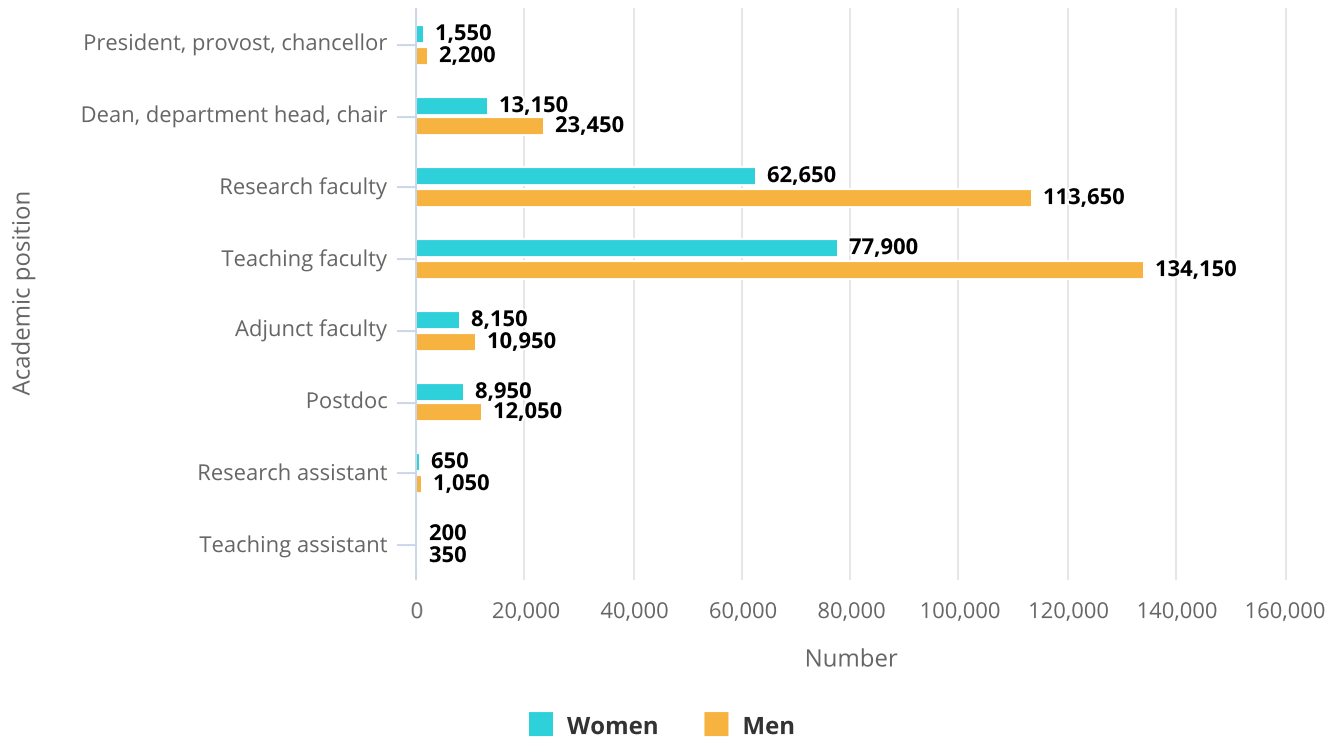

Figure 44

Doctoral scientists and engineers employed in universities and 4-year colleges, by type of academic position and sex: 2019

Note(s):

Numbers rounded to nearest 50. Detail may not add to total because of rounding and suppression. Doctoral scientists and engineers includes those who received research doctorates in science, engineering, and health fields from U.S. higher education institutions. Respondents could report more than one academic position type.
