## Note(s):

Beginning in survey year 2019, counts reflect a change in rounding methodology. Detail may not add to total because of rounding. Companies were said to be known to conduct R\&D (known positive R\&D) if they reported positive R\&D in any of the previous 5 survey years. For survey years 20082015 , companies were said to have known zero R\&D if they reported zero R\&D in at least 1 of the previous 5 survey years and no positive R\&D in any of the 5 years. Beginning in survey year 2016, companies were said to have known zero $R \& D$ if they reported zero R\&D in at least 1 of the previous 3 survey years and no positive R\&D in any of the previous 5 survey years. Companies were said to be unknown if no R\&D information was available.
