

Figure 3

Federal obligations for science and engineering to high-American Indian-enrollment institutions, by type of activity: FY 2022

FTTGs = fellowships, traineeships, and training grants; S&E = science and engineering.

Note(s):

Detail may not add to total because of rounding. Zeros and positive amounts that round to zero are not displayed in this chart. Percentages are based on unrounded data available in the detailed statistical tables. This list of high-American Indian-enrollment institutions includes those institutions of higher education that are not tribal colleges or universities and that have an enrollment of undergraduate students that is not less than 10% Native American students, according to fall 2022 enrollment data self-reported by the institutions in the Integrated Postsecondary Education Data System survey conducted by the National Center for Education Statistics.
