

Figure 1

State government expenditures for R&D: FYs 2006–23

Note(s):

No survey was conducted for FY 2008. State R&D totals can display considerable volatility between survey years due to several national and state-specific factors. Large changes are not unusual, especially for discretionary spending items such as R&D. Data include all 50 states and the District of Columbia. Puerto Rico is not included due to its classification as a U.S. territory.
