S&E = science and engineering.

^a Institutions with research space includes only those institutions that reported on shared space.^b One institution did not respond to the item asking about shared research space for "Other fields of S&E"; therefore, the percentage for that item is based on 167 institutions. The percentage for research space used for nonresearch purposes is based on 168 institutions.**Note(s):**

Institutions were asked to indicate whether any of the net assignable square feet of research space reported in individual field totals was shared with other fields or used for purposes other than research. Percentages are based on the number of institutions with research space in each field of science and engineering.
