

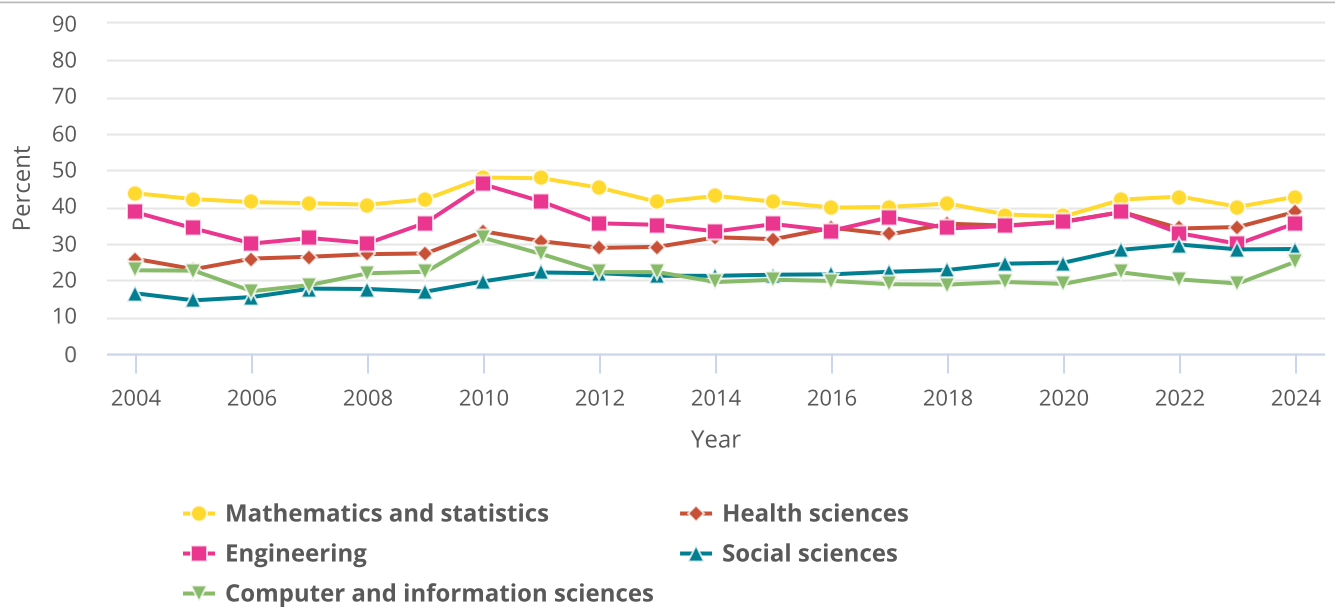

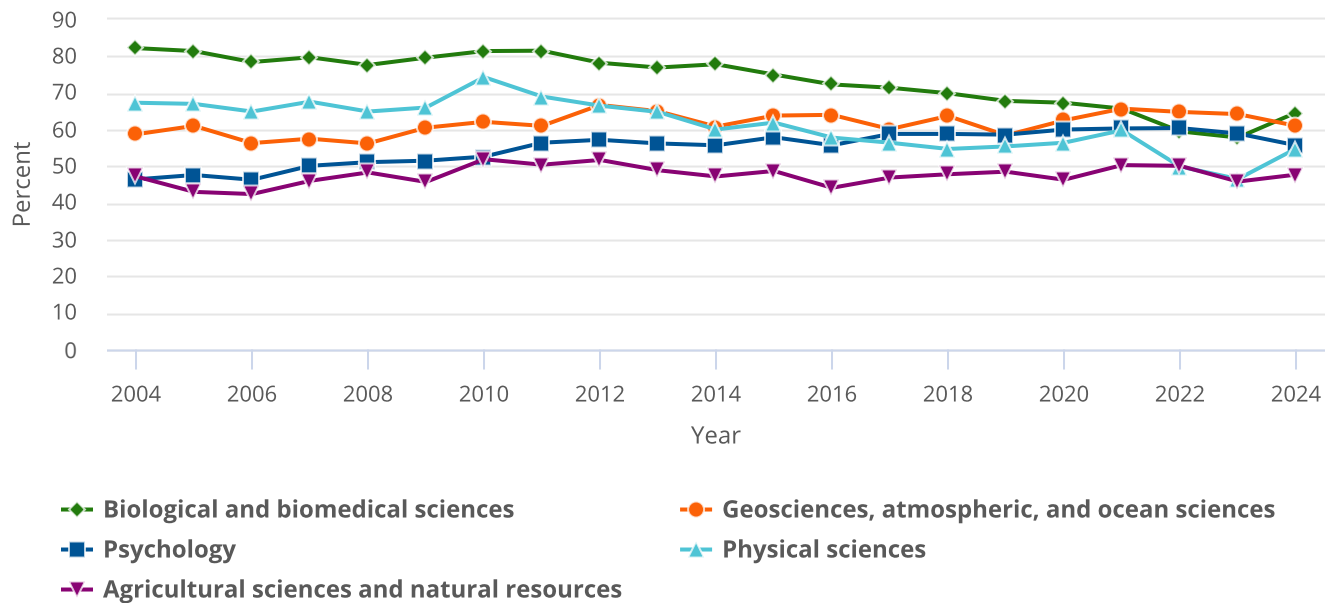

Figure 15. S&E U.S. postdoc rate for doctorate recipients, by trend broad field: 2004–24

S&E = science and engineering.

Note(s):

Percentages are based on the number of doctorate recipients who reported definite commitments in the coming year, who reported whether their commitment was for employment or postdoctoral study, and who plan to live in the United States. The survey data collection for field of study changed in 2021, which may affect the data comparison across years. This figure uses the trend field taxonomy that facilitates trend data comparisons with prior years; for more information, see the “Data source” section.
