na = not applicable; data was not collected at this level of detail.

S&E = science and engineering.

^a Through 2020 the survey data collection used the categories general support for S&E and other S&E activities. As of 2021, the category general support for S&E was changed to other general support for S&E and includes the obligations previously reported as other S&E activities.

^b FYs 2009–10 include American Recovery and Reinvestment Act of 2009 obligations.

Note(s):

Detail may not add to total because of rounding. For the FY 2020 survey, the Department of Defense (DOD) S&E support to higher education institutions and DOD R&D support to nonprofit organizations are known to be understated. However, the magnitude of the missing data is unknown. Data users should use caution when conducting any time series analysis that includes DOD obligations data for FY 2020.
