

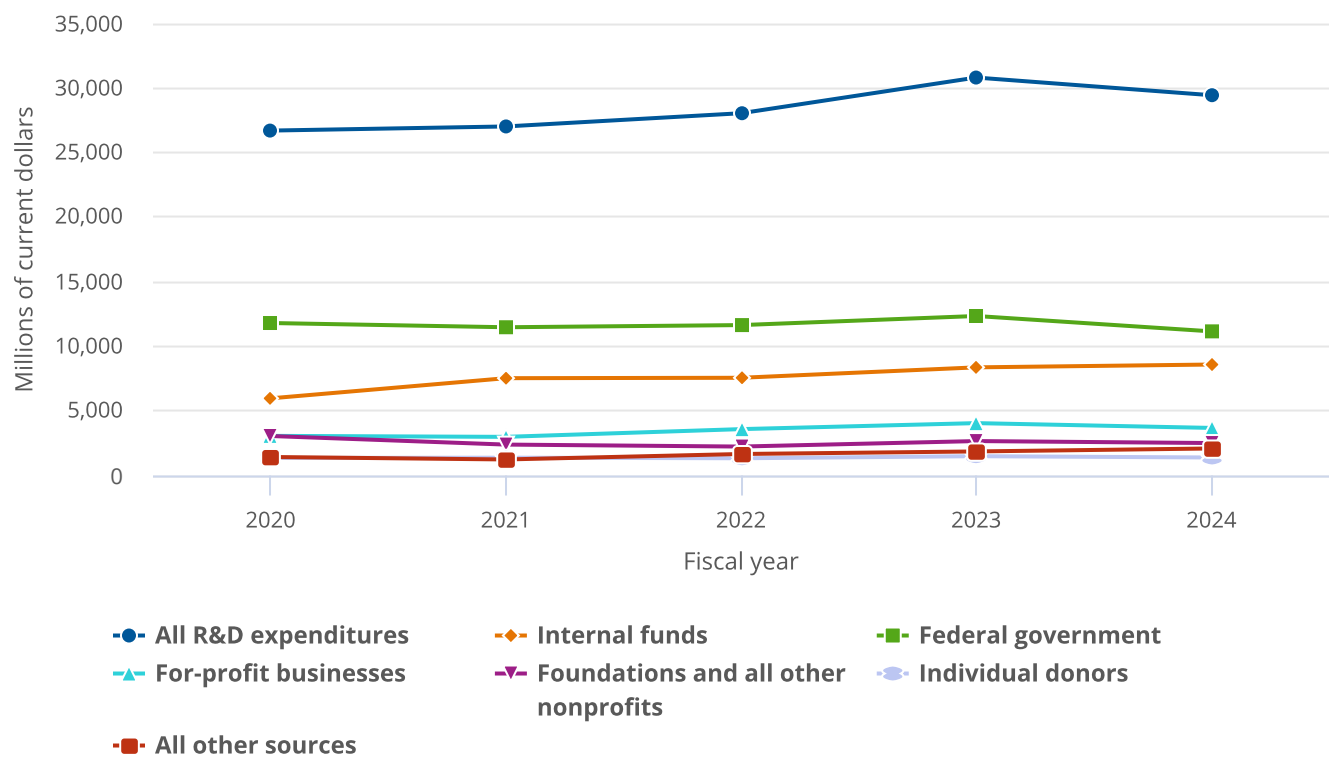

Figure 1. Total expenditures for R&D performed by nonprofit organizations, by source of funds: FYs 2020–24

Note(s):
For for-profit businesses, more than 50% of the FY 2023 estimate is a combination of imputation and reweighting to account for nonresponse. These data exclude nonprofit universities and colleges and federally funded research and development centers administered by nonprofit organizations. All other sources includes state and local government, universities, and other miscellaneous sources. Detail may not add to total because of rounding.
