

FIGURE 6-F

China's trade balance in the electrical and optical equipment industry, by selected region, country, or economy on conventional and value-added basis: 2011

EU = European Union; ROW = rest of world.

Note(s)

Exports and imports measured on a conventional basis are based on customs data and include intermediate inputs and components imported from other countries. Exports and imports measured on a value added basis estimate the value added of inputs and components originating from the region, country, or economy and exclude intermediate inputs and components imported from other countries. The EU includes the current 28 member countries. EU exports exclude exports and imports among EU member countries. China includes Hong Kong. China's exports and imports exclude exports and imports between China and Hong Kong. U.S. exports and imports exclude exports and imports to Canada and Mexico. Other selected Asia includes India, Indonesia, Malaysia, Philippines, Singapore, Thailand, and Vietnam.
